PURE RECOVERY™ is specially formulated for elite fighters and performance athletes requiring peak energy and endurance and to repair damage specific to high intensity training.

AjiPure™ Instantized Branched Chain Amino Acid (IBCAA) & L-Glutamine speeds muscle recovery. AjiPure™ IBCAA is the result of unique production technology allowing it to dissolve more quickly in water and become available in the body more rapidly. Contains 100% non-animal-origin ingredients and 99-100% purity.

Citrulline Malate is a potent precursor to arginine, clinically shown to increase performance and lean mass by supporting increased blood flow and amino acid delivery to skeletal muscle. This leads to increased protein synthesis (muscle growth), enhanced ATP production and supports cell volumization.

BioPerine™ is a patented form of piperine clinically tested and proven to increase bio availability of nutritional compounds.
