FREEDOM™

Joint Tendon Ligament
Relieves / Rebuilds / Supports

- **Relieves Pain & Inflammation**
- **Restores Functional Flexibility**
- **Rapid Recovery & Regeneration**
- **Supports Joint & Soft Tissue**
- **Clinically Proven Ingredients**

BiovaFlex® clinically proven superior to Glucosamine Chondroitin. Natural ratios of joint nutrients found in egg membrane are retained and include these key elements.

- Collagen – fibrous protein critical to cartilage strength and elasticity
- Elastin – a protein critical to skin, cardiovascular, cartilage, and spinal column health
- Desmosine and Isodesmosine—amino acids responsible for elastin’s elastic or “rubbery” properties
- Glycosaminoglycans (GAGs) including: Glucosamine and Chondroitin—vital polysaccharides which serve as structural components of connective tissue, interstitial fluids, and skeletal structures

BCM-95®: World’s only 100% natural Turmeric extract with ultimate bioactivity. The subject of 13 published articles and 8 clinical trials. BCM-95 Curcumin has greater bioavailability than Turmeric 95 percent extract and has 7 to 10 times better absorption than plain curcumin. A study in the Journal of Alternative and Complementary Medicine found that taking turmeric extracts each day for six weeks was just as effective as ibuprofen for relieving knee osteoarthritis pain. This is most likely related to the anti-inflammatory effects of curcumin -- the powerful pigment that gives the turmeric spice its yellow-orange color.

BosPure® (Boswellia serrata): A clinically researched and uniquely standardized boswellia extract with the highest naturally occurring AKBA (10% acetyl-11-keto- β -boswellic acid), the most active component in boswellia. This differs from unstandardized boswellia extracts, which can have as little as 1% of AKBA. With sustained use, boswellia may help maintain steady blood flow to your joints, supporting your joint tissues’ ability to boost flexibility and strength.

Hyaluronic acid (HA): a key component of cartilage, responsible for moving nutrients into cells and moving waste out. One of its most important biological functions is the retention of water, also providing nutrients and removing waste from cells that lack a direct blood supply, such as cartilage cells.

Bromelain: 2,400 GDU/gram the highest concentration available. This enzyme, found in pineapples, is a natural anti-inflammatory. Traditional herbalists have long used it for its ability to promote a normal inflammatory response, and relieve everyday aches, pain, and stiffness. Bromelain also aids in digestion, which helps other joint-supporting nutrients to penetrate deep into your joints.†

SUPPLEMENT FACTS

Serving Size: 2 Capsules
Servings Per Container: 30

Amount Per Serving	% Daily Value
Proprietary Blend:	1,109 mg *
BiovaFlex® water-soluble eggshell membrane, BCM-95® 100% pure extract of turmeric, Bromelain (2,400 GDU/g), BosPure® Boswellia Serrata Extract, Hyaluronic Acid, BioPerine® (95% Piper nigrum)	

* Daily Value not established

Other Ingredients: Gelatin, Rice Flour, Magnesium Stearate, Silicon Dioxide, Water

† These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Keep out of reach of children. Store in a cool, dry place away from moisture, sunlight and excess heat. Always keep tightly sealed. Does not contain any of the eight major allergens. Produced in a facility that processes eggs, soy, wheat, fish, shellfish, tree nuts, and dairy products.

Warning: This product is not intended for use by those with a serious medical condition or pregnant or lactating women. Consult your physician before use.

“As the Strength and Conditioning Coach and Nutritionist for over 15 world title holders in mixed martial arts, I know what is effective and what produces real results you can see and feel.”
